

SHOO FLY??
PATCHWORK WHEEL??
ROUNDAABOUT??

So many names!! I decided to consult a HST cheat sheet and figured it out on my own. The final, unfinished block is $16\frac{1}{2} \times 16\frac{1}{2}$.

Please use 16 different fabrics for your block, on a white or light gray background.

Need:

HST = $\left[\begin{array}{l} 8 - 4\frac{7}{8}'' \text{ squares, background,} \\ \text{white or "light gray"} \\ 8 - 4\frac{7}{8}'' \text{ squares, DIFFERENT fabrics} \end{array} \right.$

8 - $4\frac{1}{2}''$ squares, DIFFERENT fabrics

- All 16 prints should be different 😊.

1 - Make 8 half square triangles [save the other "half" for another BOM?!]

2 - Using $\frac{1}{4}''$ seams, piece to make 4 rows according to image.

3 - Join rows to form a roundabout shoo fly wheel, LOL!

✿ I can't wait to see all of the ✿ variations we make !!
