

KAWANDI QUILTING WORKSHOP – OCTOBER 13, 2026

During class I will have a pile of Kawandi pieces I have made, and I will also have one or two authentic Indian Kawandi. We will start out with a quick little presentation on what I know about Kawandi, then we will get started stitching.

The class is set up for making a small piece. Please don't plan to start on a huge piece during class. I love the enthusiasm, but you won't get far, and you may become frustrated. If having a 12" square upsets you deeply, you can switch to a 12" x 18" piece, which makes a lovely placemat.

If you are using your sewing machine, you can use any fabric/batting combo you prefer. Just consider whether your machine can happily stitch through 6-8 layers of fabric at once.

I will also have all of my favorite tools available to try and/or purchase, as well.

To kit or not kit 🤔

1. Kit, \$30, includes:

- 12" square batting
- Fat quarter backing fabric
- 6 fat eighths yarn dyed fabric
- Milliner's Size 3 needle
- 12 weight thread
- Thimble (Clover leather thimble)
- Needle gripper (Clover rubber thimble)

If you would like one, send me an email at jennifer@dizzyquilter.com I will have a couple of kits with me, too, just in case I can tempt you to try my stuff.

2. Materials required if not purchasing a kit.

- 14" square of backing fabric
- 12" square of batting (I prefer silk, wool cotton blend, or lightweight cotton)
- Assorted rectangular fabric scraps, ideally no smaller than 2" square, or larger than 6" square. You will need enough to cover your top almost twice.
- Needle - Sue Spargo's Milliner's #3 is my favorite Thimble
- Needle Gripper
- Thread
- Pins
- Sharp scissors
- Iron (very briefly used)
